Hello,

My name is Tevin Phifer. I am a husband for almost ten years to my greatest friend and wife, and a father for my amazing five year old son, four year old and two year old daughters. I'm searching for new opportunities within my industry to expand my network, diversify my skill sets, and provide for my family in an ever changing industry due to COVID.

Over the last 15 years, I've spent my time diversifying my skills through various avenues of production, including presidential events, galas and fundraisers, corporate conferences, church productions and services, and most recently, wading into the entrepreneurial front with TTJ Productions.

I have been honored to lead an organization like TTJ Productions, especially during the toughest part of the global pandemic. I have learned so much. When the doors opened for TTJ in April of 2020, we were optimistic of our ability to stay in the black. We generated nearly a half million dollars in revenue thanks to installation work for Audio-Visual systems for churches. I don't take sole credit for this, as my business partners and the few employees have been dedicated to the mission and vision of the organization.

So, I hope you would consider my resume and imagine that I could be an excellent asset to your team. As a small business owner and operator, there are several business skills that I could bring to the table, in addition to the technical and creative skills I have developed. Such as: business accounting, HR management, conflict resolution, budget creation and tracking, team building and development, executive leadership, corporate transportation logistics and coordination and more.

I appreciate you taking the time to review my resume and look forward to hearing from you regarding this posted position.
